This photograph was obtained through Louise Gibson and Joe Tomaso at [The Crowley Case- Fact vs Fiction](#).

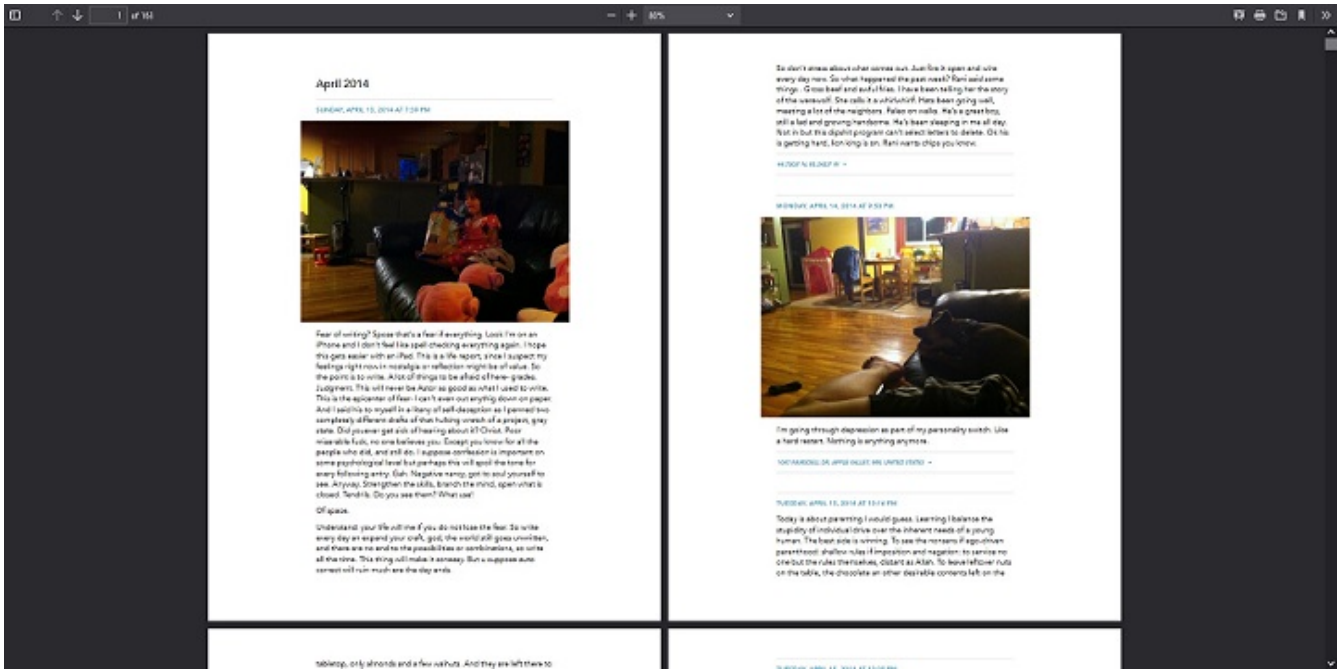

They initially claimed that they obtained this photo through a source at AVPD who was assigned the case in 2015 after building a relationship with them. Although when I later confronted them about the legality of obtaining this photo, after being lied to on numerous occasions; they changed their story and claimed that they obtained it through a legal records request, meaning that apparently anyone could obtain it.

I believe that this is a lie as I have been denied access to much less graphic photographs pertaining to the case, and moreover because MN Statute 13.82 Subd 7 states:

**Images and recordings, including photographs, video, and audio records, which are part of inactive investigative files and which are clearly offensive to common sensibilities are classified as private or nonpublic data**

This photograph clearly fits that description. The only pieces of evidence which potentially align with their claims are Raniya's redaction because of state laws regarding minors, and the metadata/properties of the file in question.

I obtained this via a records request a while ago and gave a redacted and compressed copy to the Clowns at [The Crowley Case- Fact vs Fiction](#). Their claims of obtaining it months prior are yet more lies, visible by how compressed their photographs from it are. The original file is 107mb, theirs is 4mb.

The reason why they're taking so long to publish is because they need to get their own copy, and want to because of the following information.

I redacted very small portions of the Journal as it sometimes detailed the couple's intimate life, and on two occasions with photographs that should not have been provided to me. As such I notified AVPD of this and will not be sharing these files, although you can find the aforementioned copy of the Journal and original/uncompressed copies of images contained within it at the links below:

The original metadata from the Spreadsheet suggests it was exported from Day One into a PDF by David on his iPhone and had been completely unchanged. The photos embedded had no discernable filenames or metadata.

## Electronics Reports

Examination Report	
<b>To:</b> Detectives Tommie Booth & Brian Bone Apple Valley Police Department	<b>DCCEU Case No:</b> 15000116 <b>AVPD Case No:</b> 15000303
<b>Report Prepared By:</b> Detective Shane Klukonos Dakota County ECU 1580 Highway 55 Hastings, MN 55033	<b>Regarding Incident:</b> > Homicide/suicide
<b>Date:</b> October 5, 2015	

**Not for Public Release**

Tommie,

Attached is the full examination report regarding 1051 Ramsdell Drive / Crowley Family. As you can tell from the photo's and journal entries there was widespread drug use to include a plethora of illicit drugs and the perpetrator (David Crowley) had not slept in many days. From the evidence we were able to obtain, we believe that he was using substances to remain awake and the journal entries show him becoming increasingly agitated. Although we cannot say with 100% certainty, what set the wheels in motion. We believe the actual incident occurred on either December 24, 2014 or December 25, 2014 and that the substances as well as sleep deprivation contributed. As discussed, our evidence coupled with BCA's co-investigation concur with your findings that the adult female was shot first from a short distance, the minor child was then shot at close range and placed near the adult female and at some point later, the male perpetrator turned the weapon on himself and discharged it causing his subsequent death.

We will be closing our case file to reflect the same. Please let us know if we can be of any further assistance.

-Shane

This page was obtained through Joe Tomaso at [The Crowley Case- Fact vs Fiction](#). As you can see it clearly reads "**Not for Public Release**" and was redacted from the copy of the "full" report I have provided below, which was obtained via a records request. This is more evidence of shady, less than legal methods to obtain materials.

## Lies, Confidentiality, and Shady Dealings

At [The Crowley Case- Fact vs Fiction](#) they like to claim that they're good people who would never disclose things told to them by the family in trust, hurt them, or play games with such a case.

Their entire schtick is dragging out drama to virtue-signal about how respectful and smart they are, saying that they are on the side of the families, who likely only tolerate them, and while they, behind the scenes, share graphic photos and confidential information the families entrusted them with, with complete strangers.

It all depends as to what you want to disclose. Then you come up with multiple scenarios most involve having to tell white lies or sending them on a wild goose chase, or coming up with a back story to send them off the scent.
